Section 1: Hands-On Demonstration

Part 1: Explore the Workstation Domain

4. Make screen capture showing the **Sign-in options** for Alice's account.

7. Make a screen capture showing the View configured update policies page.

14. Make a screen capture showing the Virus & Threat Protection Settings.

18. Make a screen capture showing the security warning from attempting to run an executable file.

24. Make a screen capture showing the blocked attachment message.

28. Make a screen capture showing a successful connection to the adodson user folder.

29. Make a screen capture showing a failed connection to another user folder.

31. Make a screen capture showing a successful connection to the Marketing shared folder.

32. Make a screen capture showing a failed connection to another shared folder.

Part 2: Explore the LAN Domain

5. Make a screen capture showing the vWorkstation's original ARP table.

10. Make a screen capture showing the vWorkstation's updated ARP table.

20. Make a screen capture showing the Switch01 forwarding table.

30. Make a screen capture showing the contents of the Employees directory.

Part 3: Explore the LAN-to-WAN Domain

6. Make a screen capture showing the Outbound NAT settings.

9. Make a screen capture showing the permissive LAN rules.

12. Make a screen capture showing the Static Routes page.

16. Make a screen capture showing the result of your tracer to the pfsense-dc appliance.

22. Make a screen capture showing the Port Forward rules for the web server.

25. Make a screen capture showing the DMZ firewall rules.

Section 2: Applied Learning

Part 1: Explore the WAN Domain

5. Make a screen capture showing the **static route** for the point-to-point connection.

9. Make a screen capture showing the **BGP** neighbor ping results.

12. Make a screen capture showing the traceroute to the file server.

Part 2: Explore the Remote Access Domain

9. Make a screen capture showing the **successful connection to the email server**.

14. **Document** whether the VPN connection is split tunnel or full tunnel, based on the tracert results.

The VPN connection is a split tunnel based on the tracert results

16. Make a screen capture showing the **successful reverse DNS lookup** for the internal host.

Part 3: Explore the System/Application Domain

4. Make a screen capture showing the **whoami** results.

10. Make a screen capture showing the **members of the Developers AD group**.

16. Make a screen capture showing the password policy settings in the Group Policy Management Console.

20. Make a screen capture showing the DNS entries.

28. Make a screen capture showing the Docker service status.

31. Make a screen capture showing the juiceshop.com web page.

36. Make a screen capture showing the disks in the tank volume.

Section 3: Challenge and Analysis

Part 1: Explore the User Domain

Based on your research, **identify** at least **two compelling threats** to the User Domain and **two effective security controls** used to protect it. Be sure to cite your sources.

Incomplete

Part 2: Research Additional Security Controls

Based on your research, **identify** security controls that could be implemented in the Workstation, LAN, LAN-to-WAN, WAN, Remote Access, and System/Application Domains. **Recommend** and **explain** one security control for each domain. Be sure to cite your sources.

Incomplete
